Project review (Article 25)
Invitation letter

Dear Madam/Sir,

I am writing in connection with your above-mentioned grant and would like to inform you that we are planning a **project review**.

The review will cover the project activities that you have carried out.

It will examine:

- the degree to which the work plan has been carried out and whether all deliverables were completed
- whether the objectives are still relevant and provide scientific or industrial breakthrough potential
- how resources were planned and used in relation to the achieved progress, and if their use respects the principles of economy, efficiency and effectiveness (not applicable for Lump Sum projects)
- the management procedures and methods of the project
- the beneficiaries' contributions and their integration within the project
- the expected potential scientific, technological, economic, competitive and social impact, and plans for using and disseminating results
- eligibility of the costs claimed (not applicable for Lump Sum projects)
- compliance with other grant agreement obligations.

It will also cover the work of third parties involved in the project (*e.g. linked third parties, third parties giving in-kind contributions, subcontractors, etc*).

For a part of this process, we will be assisted by the following **outside expert(s)**:

- Jarosław KOPERSKI
 - Texas A&M University
 - Uniwersytet Jagiellonski w Krakowie Wydział Fizyki Astronomii i Informatyki Stosowanej
 - UNIWERSYTET JAGIELLONSKI IN KRAKOW

Please let us know — within **5 days** of receiving this letter — if you object to this expert on the grounds of commercial confidentiality, and explain the reasons why (via your [Funding & Tenders Portal account](#)).

I would be grateful if you could inform the other members of your consortium (if any) of this letter.

For any questions, please contact us via your [Funding & Tenders Portal account](#).

Yours faithfully,

Project Officer
